

## FEATURES and BENEFITS:

### ✓ FAST DRYING

With 10 to 15 second drying times per use your hands are completely dry and leaves your hands feeling like they have just received an enjoyable massage.

### ✓ ENERGY SAVING

The Dualflow does not incorporate a heating element and with drying times of 10-15 seconds it is extremely energy efficient.

### ✓ HYGIENIC

With the inclusion of Microban, an antimicrobial agent that is embedded into key parts of the drying system killing harmful airborne germs, has made the Dualflow one of the most hygienic hand dryers in the market today. Microban permanently kills germs for the entire life cycle of the unit and will not wear off like surface coatings.

### ✓ CLEAN AND PLEASANT WASHROOM

Dualflow also offers the option of utilizing its odourless tablets, which neutralizes restroom odors. These tablets have an extended life span so maintenance is very simple and infrequent.

### ✓ WASTE-FREE

The water from your hands is collected inside a drain container that can easily be emptied and the floor stays dry. Once the water container is full staff is alerted by a flashing light and warning sound located on the top of the unit. This alert system eliminates water spray caused by container overflow and prevents floor debris from circulation throughout the restroom and assists in maintaining a liability free, safe restroom environment.

### ✓ ELEGANT DESIGN and STATE OF THE ART TECHNOLOGY

Its's stylish U-shape design is available in the popular ABS white, bright and brushed finishes. It provides a modern decorative element to any facility that will help your companies image by providing the latest green technology.

### ✓ FIVE YEARS WARRANTY

With a 5 years limited warranty, the DUAFLOW offers a peace of mind and no hidden extra costs.

### PRODUCT MATERIALS:

**Cover:** High impact 1/8" thick ABS with antibacterial protection Microban in drying area.

**Motor:** Two universal brush motor, high speed.

**Fan wheel:** Aluminum centrifugal double asymmetric inlet fan wheel, aluminum scroll fan and safety thermal cut-off.

**Sensor operation:** Electronic infrared detection sensor with polycarbonate viewing window. Automatic shut-off after 23 seconds.

**Mounting brackets:** Galvanized steel with three holes for wall mounting.

**Overall dimensions:**  
24-1/4" H x 11-3/4" W x 7-1/2" D

### PRODUCT SPECIFICATIONS:

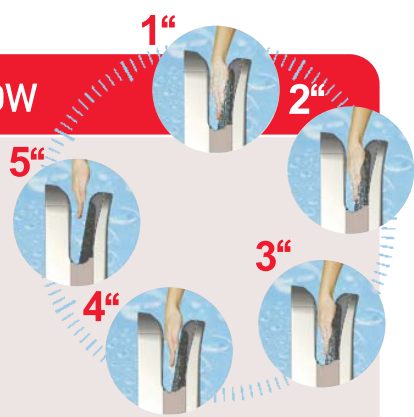

M08A / M08AC / M08ACS

Model	120 V
Voltage	110/120 V
Frequency	50/60 Hz
Power	1750 W
Consumption	15.9 A.
Air speed	125 Mph
Drying time	10 – 15 sec
Weight	21.1 Lbs
RPM	30000
Electrical isolation	Class II (grounding not required)
Protection level	IP33
Finishes	White / Bright / Satin

### HOW TO USE DUALFLOW

**1** Simply place your hands (no hand movement) into the top of the hand dryer and within a few seconds 300 separate air nozzles of air will efficiently & hygienically dry your hands.

**2** An infrared sensor located on the left top of the unit detects when hands are placed and after approximately 10-15 seconds your hands are dry, with the dryer automatically switching off after 23 seconds. When hands are removed the dryer will stop.

NOTE: Drying time may vary depending on conditions
